this book presents a new theory of discourse arguing that our understanding of
texts ultimately rests on our practices and on what we do it will be welcomed by
students and researchers looking for a form of discourse analysis that is explicit and
methodical as well as socially and critically relevant

discourse theory and practice is much more than a collection of key classic articles
and papers in the field of discourse analysis the aim of the book is to introduce
students to the major figures in the field and to some of their writings which
combined with the interspersed editorial commentaries should allow students to

understand the key epistemological and methodological issues of discourse theory and practice the reader is organized into four coherent parts namely foundations and building blocks social interaction minds selves and sense making and culture and social relations key readings include works by stuart hall jonathan potter david silverman erving goffman teun van dijk derek edwards and michael billig chapters introduce the student to each individual and their reading contextualizing each in terms of their contribution to the field theoretical standpoint and individual method of doing discourse analysis the many didactic elements of the book make it ideal as an introduction to the study of discourse for all students of psychology sociology linguistics or cultural studies

first published in 1996 routledge is an imprint of taylor francis an informa company

in the classroom knowledge is widely distributed among the students and teacher but is difficult to share across linguistic and cultural barriers seeking paths across these barriers lynne wiltse meticulously explores the question what is the discourse frame in which students and teachers work situated in a grade nine multilingual classroom her work provides a rich description of the research process in the classroom at the same time she draws the reader sequentially through the analysis revealing inferences in increasing levels of abstraction within a framework of communities of practice she highlights issues related to second language acquisition students immigration experiences teaching and learning and points the way toward multi vocal dialogues and practices that can forge a path across cultural and linguistic divides

it is commonplace to say that we are living in troubled times liberal democracy is in crisis academic freedom is seriously constrained the media offers less insight and analysis than could be expected given the proliferation of communication tools based on decades of research into the social and ideological functioning of discourse and with a focus on politics universities and the media jef verschueren offers an analysis of current practices asks whether we are all complicit and makes suggestions for what we can do central to this book is the notion of derailed reflexivity referring to the observation that politics institutions and news reporting tend to be excessively aimed at public opinion impression management and clicks to the detriment of policies addressing social justice issues high quality service and media content highlighting that education is the cornerstone for democratic choices and ensures that we can critically assess media content this book shows that shared responsibility can be a source of hope and that everyone has the power to intervene complicity in discourse and practice is a call to action for readers and a plea for actively minding the ecology of the public sphere

through theoretical and methodological frameworks researchers from writing studies communication disorders communication studies applied linguistics anthropology and education argue for a new dialogic approach to multimodality as a question of semiotic practices as well as multimodal artifacts

exploring discourse practices in romanian is a glimpse into romanians style of interaction which has developed eclectically at the crossroads of eastern and western cultures it is oriented towards modern literacy while being deeply rooted in

a long oral tradition and paradoxically displays both attachment to local specifics and commitment to mimetic speech and actions imported from various cultural spaces the book presents a characterisation of the romanian cultural space in terms of various discourse practices drawing on recent challenging theoretical proposals and concluding with in depth corpus based analyses the chapters focus on five main topics the co construction of discursive identities discursive polyphony textualisation of attitudes and emotions conceptual metaphors and grammaticalisation of context explored in various discourse genres political discourse media discourse professional discourse face to face conversation literature of memoirs and the usage of romanian by non natives the theoretical framework utilised here is discourse analysis defined in a broad sense with regards to discourse patterns pragmatic phenomena conversation analysis and rhetoric the volume having both a theoretical and an applied dimension will appeal to an international readership including researchers interested in current developments of pragmatics and discourse analysis

efforts to improve mathematics education have led educators and researchers to not only study the nature of proficiency beliefs and practices in mathematics learning and teaching but also identify and assess possible influences on students and teachers proficiencies beliefs and practices in learning and teaching mathematics the complexity of these topics has fascinated researchers from various backgrounds including psychologists cognitive or learning scientists mathematicians and mathematics educators among those researchers two scholars with a similar background alan schoenfeld in the united states and günter törner in germany are internationally recognized for their contributions to these topics to celebrate their 65th birthdays in 2012 this book brought together many scholars to reflect on how their own work has built upon and continued alan and günter s work in mathematics education the book contains 17 chapters by 33 scholars from six different education systems this collection describes recent research and provides new insights into these topics of interest to mathematics educators researchers and graduate students who wish to learn about the trajectory and direction of research on these issues

cds is a multifarious field constantly developing different methodological frameworks for analysing dynamically evolving aspects of language in a broad range of socio political and institutional contexts this volume is a cutting edge interdisciplinary account of these theoretical and empirical developments it presents an up to date survey of critical discourse studies cds covering both the theoretical landscape and the analytical territories that it extends over it is intended for critical scholars and students who wish to keep abreast of the current state of the art the book is divided into two parts in the first part the chapters are organised around different methodological perspectives for cds history cognition multimodality and corpora among others in the second part the chapters are organised around particular discourse types and topics investigated in cds both traditionally e g issues of racism and gender inequality and only more recently e g issues of health public policy and the environment this is altogether an essential new reference work for all cds practitioners

mediated discourse the nexus of practice sets out a discursive theory of human action language and action are intimately related the difficult question to answer is how they are related mediated discourse theory looks into social relationships to see how the use of language is both a form of action in itself and is also indirectly related to all other forms of human action through the empirical study of a one year old child learning to exchange objects with caregivers scollon challenges the commonly held claim that all practices are represented in discourse and that all discourse has the function of structuring practice calling upon work in interactional sociolinguistics critical discourse analysis anthropological linguistics sociocultural psychology and intercultural communication the mediated discourse theory set out in this book resolves current problematic issues such as how practices are learned across the boundaries of groups and how individuals come to be socialized as social actors

examines how language functions in maintaining and changing power relations in modern society it discusses ways of analysing language which can reveal these processes how people can become more conscious of them and more able to resist and change them

doctoral thesis dissertation from the year 2022 in the subject english language and literature studies linguistics university of baghdad language english abstract the study of identity within a given discourse is one of the significant topics in the field of critical discourse analysis iraqi christian identity has undergone various political and social changes during different historical periods leading to the emergence of the christian identity as a minority in society the present study investigates the representation of the identity of iraqi christian minority in the narrative discourse of selected english and arabic novels more precisely the present study is a critical discourse analysis of the christian identity as a minority in selected english and arabic novels namely the english novel abducted in iraq by saa d hanna 2017 and the arabic novel the american granddaughter by inaa m kachachi 2009 the study aims at first identifying the identity representation of iraqi christian minority in the narrative discourse of selected english and arabic novels before and after 2003 war second investigating the textual resources and their role in the identity construction of iraqi christian minority in the narrative discourse of selected english and arabic novels before and after 2003 war third identifying the discursive resources and their role in the identity construction of iraqi christian minority in the narrative discourse of selected english and arabic novels before and after 2003 war fourth examining the social resources and their role in the identity construction of iraqi christian minority in the narrative discourse of selected english and arabic novels before and after 2003 war that is it examines the role played by power and social dynamisms in the identity construction under analysis and fifth investigating similarities and differences in the identity construction of iraqi christian minority in the narrative discourse of selected english and arabic novels before and after 2003 war at the textual discursive and social levels of analysis for achieving the afore mentioned aims a purposive sampling technique is used to choose the most representative data from the selected english and arabic novels

the data is analysed according to a synthesised theoretical framework based on wodak et al 2009 fairclough 2015 wortham 2001 and graumann 1999 the data are analysed both qualitatively and quantitatively

originally published in 1989 in this remarkable conjunction of constitutional theory jurisprudence literary theory constitutional law and political theory william conklin first tells us what a constitution is not it is not a text nor a compendium of judicial and legislative decisions interpreting a text nor a set of doctrines nor moral political values nor customs nor a priori conceptions a constitution he argues is an image which exists through the legal consciousness of a community using a wide range of canadian judicial decisions as examples conklin shows that the classic cases have been those where the boundaries of two conflicting images clashed in each instance the subject matter itself collapses into a search for a coherent image of what a constitution is all about the dominant image of a constitution in canadian judicial discourse has been a rationalist one emanating from the enlightenment understanding of knowledge turning to academic writings on canadian federalism law conklin goes on to identify clearly the boundaries of three versions of rationalism and to show that canadian scholars have shared with judges the dominant image of rationalism in the third part of his essay the author makes a prescriptive claim namely that a text such as the canadian charter of rights and freedoms arguably raises issues which the rationalist image of a constitution precludes as legitimate inquiries he identifies a further general image of a constitution in canadian legal discourse a teleological one which is rooted in the writings and judgments of ivan rand finally he uses the contours of the rand image to work out a further image of constitution an image that allows lawyers to entertain issues of both theory and social cultural practice thereby placing them in a position to alleviate the pain and suffering of those in need

in this volume prominent political theorist michael zuckert presents an important and pathbreaking set of meditations on the thought of john locke in more than a dozen provocative essays many appearing in print for the first time zuckert explores the complexity of locke s engagement with his philosophical and theological predecessors his profound influence on later liberal thinkers and his amazing success in transforming the political understanding of the anglo american world at the same time he also demonstrates locke s continuing relevance in current debates involving such prominent thinkers as rawls and macintyre zuckert s careful reconsideration of locke s role as launcher of liberalism involves a sustained engagement with the hermeneutical issues surrounding locke an innovator who faced special rhetorical needs in addressing his contemporaries and the future it also involves highlighting the novelty of locke s position by examining his stance toward the philosophical and religious traditions in place when he wrote zuckert argues that neither of the dominant ways of understanding locke s relations to his predecessors and contemporaries is adequate he is not well seen as a follower of any orthodoxy nor of any anti orthodoxy of his day either philosophical or theological he found a path to innovation that was philosophically radical but which was also able to connect with prevailing and accepted traditions that allowed him to exercise a practical influence in history rarely if ever matched by any other philosopher zuckert illustrates that influence by showing how william blackstone

used lockean philosophy to reshape the common law and how the americans of the eighteenth century used lockean philosophy to reshape whig political thought zuckert argues that locke s philosophy has continuing philosophic and political force a proposition he demonstrates by arguing that locke presents a form of political philosophy superior to that of the liberal theorists of our day and that he has solid rejoinders to contemporary critics of liberalism
