guide to global small arms weaponry

with modern military emphasis on whiz bang weapons technology and the constant quest for things that make a bigger bang on the battlefield it s easy to forget that at the dark heart of war stands an infantryman and his individual weapons those who understand warfare from research or from personal experience generally realize this about the conflicts that have plagued mankind since the dawn of time infantry weapons often referred to as small arms have fascinated soldiers and scholars for decades as they are the most personal aspects of combat small arms come into play when contact is close and potentially lethal this was particularly true during the long frustrating war in vietnam but much of the focus in studying that conflict has been either on aerial weapons strike aircraft or armed helicopters or on the originally much maligned m16 rifle there were huge numbers of other weapons used by both sides but they are often ignored and rarely seen being used in combat action this book solves that problem divided into easily digestible sections and preceded by cogent discussions of each weapon type the authors have presented an intriguing collection of photographs that depict the primary small and not so small infantry arms most common on vietnam battlefields there are rare and stirring images here that depict what it was like to fight in the jungle covered mountains and in the rice paddies viewing these images is like studying

a primer about one of america s longest and deadliest wars we have a new generation of combat veterans among us these days men and women who carried a new generation of weapons to war into places such as iraq and afghanistan who have returned with a fresh understanding about the crucial importance of small arms in warfare they understand that there is no strategy or tactic that equals victory in armed conflict if it does not include that muddy grimy dog tired infantryman with just his personal weapon to help him survive in a life and death encounter american rifleman it s an excellent book for anyone with an interest in the details of 20th century infantry weapons especially historians and collectors booksmith

part of the weapons of war series this book features more than 150 color and black white illustrations and photographs as well as detailed specifications about small arms from 1950 to the present small arms 1950 present day brings together the most important handheld guns of the second half of the twentieth century in a single volume arranged in alphabetical order the book includes some of the best known weapons of the era such as the ak 47 and m16 assault rifles the uzi submachine gun and the fn five seven pistol features 150 entries of the most important weapons of the era every weapon is illustrated with an accurate color artwork each entry includes a specifications table with essential information such as armament weight speed and range concise text provides a summary of the design development service history and performance of each weapon this book contains details on handguns manually operated rifles semi automatic and automatic rifles submachine guns machine guns grenade launchers and shotguns from 1950 to the present

this is a new release of the original 1948 edition
