soft law increasingly shapes and impacts the content of international law in multiple ways from being a first step in a norm making process to providing detailed rules and technical standards required for the interpretation and the implementation of treaties this is especially true in the area of human rights while relatively few human rights treaties have been adopted at the un level in the last two decades the number of declarations resolutions conclusions and principles has grown significantly in some areas soft law has come to fill a void in the absence of treaty law exerting a degree of normative force exceeding its non binding character in others areas soft law has become a battleground for interpretative struggles to expand and limit human rights protection in the context of existing regimes despite these developments little attention has been paid to soft law within human rights legal scholarship building on a thorough analysis of relevant case studies this volume systematically explores the roles of soft law in both established and emerging human rights regimes the book argues that a better understanding of how soft law shapes and affects different branches of international human rights law not only provides a more dynamic picture of the current state of international human rights but also helps to unsettle and critically question certain political and doctrinal beliefs following introductory chapters that lay out the general conceptual framework the book is divided in two parts the first part focuses on cases that examine the role of soft law within human rights regimes where there are established hard law standards its progressive and regressive effects and the role that different actors play in the incubation process the second part focuses on the role of soft law in emerging areas of international law where there is no substantial treaty codification of norms these chapters examine the relationship between soft and hard law the role of different actors in formulating new soft law and the potential for eventual codification

focusing on femicide this book provides a contemporary re evaluation of carol smart s innovative approach to the law question as first outlined in her ground breaking book feminism and the power of law routledge 1989 smart advocated turning to the legal domain not so much for demanding law reforms as construing it as a site on which to contest gender and more particularly gendered constructions of women s experiences over the last 30 to 40 years feminist law scholars and activists have launched scathing trans jurisdictional critiques of the operation of provocation defences in hundreds of femicide cases the evidence

unearthed by feminist scholars that these defences operate in profoundly sexed ways is unequivocal accordingly femicide cases have become critically important sites for feminist engagement and intervention across numerous jurisdictions exploring an area of criminal law that was not one of smart s own focal concerns this book both honours and extends smart s work by approaching femicide as a site of engagement and counter discourse that calls into question hegemonic representations of gendered relationships femicide cases thus provide a way to continue the endlessly valuable discursive work smart advocated and practised in other fields of law both in articulating alternative accounts of gendered relationships and in challenging law s power to disqualify women s experiences of violence while privileging men s feelings and rights

at the expense of basic human rights dignity and decency africans were torn from their native countries and first brought to the united state as slaves yet even in the face of injustice and hardship they have endured since then african americans have been bolstered by the sacrifices leadership and determination of courageous individuals this inspiring volume chronicles the history of african americans the triumphs and tragedies from origins on the african continent to the end of the harlem renaissance

what began as a doctoral thesis in sociology at the ontario institute for studies in education became this history of loot or the lesbian organization of toronto which sought to subvert the history of lesbian invisibility and persecution by claiming a collective empowering public presence during the mid to late 1970s archival sources and interviews provide a view of the complex developments in community identity and visionary politics in the feminist left and gay liberation movements of the time annotation copyright by book news inc portland or
