this comprehensive textbook comprises a complete update of the first edition to reflect evolving standards of practice with contributions from dozens of prominent experts from around the world the oxford textbook of correctional psychiatry second edition stands apart from other available resources with updates including the treatment of transgender individuals the use of medication assisted treatment mat for substance use disorders trauma informed care and the management of mental illness in restrictive housing settings

this textbook brings together leading experts to provide a comprehensive and practical review of common clinical organisational and ethical issues in correctional psychiatry

this collaborative text addresses the full range of issues faced by correctional psychologists and other mental health service providers who offer programs and services within correctional institutions from critical program development and management issues to specific treatment options for special populations

the 15 years since publication of the second edition of the american psychiatric association s task force report on psychiatric services in correctional facilities have seen increasing rates of incarceration of mentally ill individuals continuing criminalization of substance use disorders and a lack of accessible and appropriate care in the community the purpose of the new edition psychiatric services in correctional facilities and the aim of the work group that authored it over many years of research dialogue and development is to provide leadership in addressing the needs of the often disenfranchised population of the incarcerated and to provide guidance to mental health clinicians working in correctional settings urging an expanded role in leadership and advocacy the work group members present the foundational principles that apply to providing care in correctional facilities outline the basic types of services that should be provided and apply the principles and guidelines previously established to specific disorders patient populations treatment modalities and special needs working with these patients and in these settings presents particular challenges that clinicians are unlikely to have encountered elsewhere in practice such as the use of

seclusion and restraint and administrative issues psychiatric services in correctional facilities provides critical guidance and support for mental health professionals operating in this often frustrating environment enabling them to provide both effective treatment and informed advocacy for their patients

clinicians who work on the frontlines of correctional mental health know that the challenges are only increasing not only is the proportion of inmates with mental disorders growing at a rate that exceeds that of the correctional population as a whole but this group is expanding at both ends of the aging continuum so that increasing numbers of both geriatric and juvenile offenders require assessment and treatment changing patient demographics and evolving treatment modalities make it essential that psychiatrists psychologists social workers nurses and other professionals who serve the prison population have access to the most practical up to date and comprehensive resource handbook of correctional mental health now in an expanded second edition is that resource this book addresses key concepts to ensure that the reader meets the current standard of care for inmates through all phases of the criminal justice system in 20 state of the art chapters nationally recognized providers and correctional mental health experts address the most pressing issues facing clinicians unique to this edition the handbook summarizes the literature regarding unique populations observed in a correctional environment thereby assisting the provider in tailoring treatment to various target populations provides a clear overview of both malpractice law and the concept of deliberate indifference that aids the reader in understanding the legal requirements for providing care and minimizing risks of lawsuits educates clinicians on how to differentiate feigned versus legitimate mental health symptoms and how to understand and interpret inmate motivations for psychiatric malingering discusses important administrative aspects regarding documentation issues quality assurance and practicing under a consent decree provides useful tables throughout the text with key summary points emphasized includes five new clinically focused chapters on the assessment and treatment of inmates with substance use disorders geriatric offenders juvenile offenders inmates with self injurious behaviors offenders who have experienced various traumas during

their lives and inmates housed on maximum security units and death row other titles in the field are either out of date or limited in scope by contrast this new edition of handbook of correctional mental health includes everything mental health professionals need to provide the highest standard of care to this growing and complex patient population

this highly accessible volume tours the competencies and challenges relating to contemporary mental health service delivery in correctional settings balancing the general and specific knowledge needed for conducting effective therapy in jails and prisons leading experts present eclectic theoretical models current statistics diagnostic information and frontline wisdom evidence based practices are detailed for mental health assessment treatment and management of inmates including specialized populations women youth and offenders with specific pathologies sexual offenders psychopaths and readers are reminded that correctional psychology is in an evolutionary state adapting to the diverse needs of populations and practitioners in the context of reducing further offending included in the coverage assessing and treating offenders with mental illness substance use disorders in correctional populations assessing and treating offenders with intellectual disabilities assessing and treating those who have committed sexual offenses self harm suicidality in corrections correctional staff the issue of job stress the practice of correctional psychology will be of major interest to psychologists social workers and master s level clinicians and students who work in correctional institutions and settings with offenders on parole or probation as well as other professionals within the correctional system who work directly with offenders such as probation officers parole officers program officers and corrections officers
